

### **MATERIAL SAFETY DATA SHEET**

| I. PRODUCT AND COMPANY IDENTIFICATION |  |  |
|---------------------------------------|--|--|
| Trade Name                            | Spectrum Bovine Serum albumin(BSA)                                   |  |
| Catalogue Number                      | 1 x 10 ml  |  |
|                                       | 10 x 10 ml   |  |
| Description/Intended use              | Spectrum Diagnostics BSA reagent is intended for the Laboratory uses |  |
| Name of the Company with              | <u>Egypt</u>   |  |
| Address and Tel No.                   | Spectrum For Diagnostics Industries - Free Zone                      |  |
|                                       | Ismailia Free Zone , Block 5.  |  |
|                                       | Cairo- Port said Avenue.   |  |
|                                       | Ismailia,Egypt   |  |
|                                       | Tel: +2 064 3488 013 - +2 064 3488 014 Fax: +2 064 3488 015          |  |
|                                       | www.sdi-fz.com   |  |

| II. COMPOSITION/HAZARDOUS COMPONENTS |                   |            |                                |
|--------------------------------------|-------------------|------------|--------------------------------|
| Item:                                | Percent           | CAS No.    | Threshold Limit Value(units)   |
| Reagent                              | 0.1% Sodium Azide | 26628-22-8 | OSHA PEL 0.3 mg/cubic meter CL |

| III. HAZARD IDENTIFICATION |  |  |
|----------------------------|--|--|
| Primary routes of entry    | Inhalation, ingestion, skin and/or eye contact                             |  |
| Inhalation                 | Inhalation of vapours, mists or sprays of these components may irritate    |  |
|                            | the nose, throat and lungs.  |  |
| Ingestion                  | Ingestion of this product especially in large quantities may cause gastric |  |
|                            | distress. Symptoms may include nausea, vomitting or diarrhoea.             |  |
| Skin contact               | Contact with skin may develop mild irritation. Sodium azide may enter      |  |
|                            | body through skin.   |  |
| Eye contact                | Contact with eyes may develop mild irritation.                             |  |

| IV. FIRST AID MEASURES |  |  |
|------------------------|--|--|
| Inhalation             | Remove to fresh air. If not breathing, give artificial respiration. If breathing |  |
|                        | is difficult, give oxygen.   |  |
| Ingestion              | Get medical attention if there has been ingestion of this product.               |  |
| Eye/Skin contact:      | Immediately flush eyes or skin with copious amounts of water for at least        |  |
|                        | 15 minutes while removing contaminated clothing and shoes. Assure                |  |
|                        | adequate flushing of the eyes by separating the eyelids with fingers.            |  |

| V. FIRE FIGHTING MEASURES |  |  |
|---------------------------|--|--|
| Extinguishing media       | Carbon dioxide, dry chemical powder or polymer foam.               |  |
| Firefighting procedures   | Wear self contained breathing apparatus and protective clothing to |  |
|                           | prevent contact with skin and eyes.                                |  |

# VI. ACCIDENTAL RELEASE MEASURES

Use an absorbent material to contain or pick up the spilled solution. Place the spill residue in a container, seal label and hold for disposal. Use laboratory gloves, chemical resistant aprons, boots, and splash goggles for safety.

### **VII. HANDLING AND STORAGE**

When used in accordance with the Principles of Good Laboratory Practice, Good Standards of Occupational Hygiene and the instructions stated in the product insert, these products are not considered to present a hazard to health. Store between 2 to 8° C. For In vitro Diagnostic use only. Not for medicinal use.

| VIII. EXPOSURE CONTROLS AND PERSONAL PROTECTION |   |  |
|---|---|--|
| Ventillation data                               | Local exhaust ventillation is generally preferred to control emmissions of            |  |
|   | the contaminant at its source.  |  |
| Respiratory protection                          | Not required under normal use of this product.  |  |
| Other protective equipment                      | Wear appropriate gloves and body apparatus and masks to prevent skin and eye contact. |  |

| IX. PHYSICAL AND CHEMICAL PROPERTIES |                          |  |
|--------------------------------------|--------------------------|--|
| Appearance                           | coloureless clear liquid |  |
| Odour                                | None known               |  |
| Vapour density (sodium azide)        | 2.2                      |  |
| Specific gravity (sodium azide)      | 1.850                    |  |
| Solubility in water                  | Soluble                  |  |
| Melting point                        | Not applicable           |  |
| Flash point                          | Not applicable           |  |
| Flammable limits (LEL & UEL)         | Not applicable           |  |

| X. STABILITY AND REACTIVITY |  |  |
|-----------------------------|--|--|
| Materials to avoid          | Strong bases, strong acids and water reactive materials      |  |
| Hazardous decomposition     | Thermal decomposition may produce carbon monoxide and carbon |  |
| products                    | dioxide  |  |
| Conditions to avoid         | Avoid acidification of solution.                             |  |

| XI. TOXICOLOGICAL INFORMATION |   |  |
|-------------------------------|---|--|
| Toxocity data                 | Sodium Azide (Undiluted): LD50 (rat and mouse, oral)=27mg/kg; LD50    |  |
|                               | (rabbit, skin)=20mg/kg.   |  |
| Organ effects                 | Eyes (redness), Central Nervous System(nausea/vomitting),             |  |
|                               | cardiovascular systems(fall in blood pressure, change in heart rate), |  |
|                               | Digestive(nausea/vomitting/diarrhoea).                                |  |
| Carcinogenicity               | No  |  |

|                                     | XII. ECOLOGICAL INFORMATION |
|-------------------------------------|-----------------------------|
| Environmental fate/stability,effect | Not applicable              |
| on plants, animals or aquatic life  |                             |

| XIII. DISPOSAL CONSIDERATIONS |  |  |
|-------------------------------|--|--|
| Waste disposal method         | Remains of samples, reagents and controls should be collected in a   |  |
| 4/                            | recipient for this purpose and autoclaved for 1 hour at 121°C.       |  |
| Liquid disposal               | Flush drains with excess water thoroughly after disposing of liquid. |  |

| XIV. TRANSPORT INFORMATION                |  |
|---|--|
| Not regulated under transport regulations |  |

|                | XV. REGULATORY INFORMATION |  |
|----------------|----------------------------|--|
| Not applicable |                            |  |

| XVI. OTHER INFORMATION |  |
|------------------------|--|
| Not applicable         |  |

The above information is believed to be correct, but does not purpose to be all inclusive and should be used only as a guide. The manufacturer shall not be held responsible for any damage resulting from handling or use of the product.

### XVII. Shipping instructions

**UN Number:** None allocated.

Proper Shipping Name: None allocated.

**Dangerous Goods Class:** None allocated.

Subsidiary risk: None allocated.

Packing Group: None allocated.

Hazchem Code: None allocated.

### Road and Rail Transport:

Not classified as a Dangerous Good according to the United Nations Recommendations for the Transport of Dangerous Goods and Globally Harmonized System for the Classification and Labeling of Chemicals.

#### Air Transport:

Not classified as a Dangerous Good according to the International Civil Aviation Organization (ICAO) and International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

## Marine Transport:

Not classified as a Dangerous Good according to the International Maritime Organization Rules (Maritime Dangerous Goods Code - IMDG Code) for transport by sea.

### XVIII. Approved disposal agent

Refer to appropriate authority in your State. Normally suitable for disposal by approved waste disposal agent.

The above information is believed to be correct, but does not purpose to be all inclusive and should be used only as a guide. The manufacturer shall not be held responsible for any damage resulting from handling or use of the product.
